## Objective
To Obtain a Position that Helps Career Growth by Using the Skills I Have.

## Technical Skills

- Data Analysis and Visualization
- Machine Learning,
- EDA,
- Keras,
- Predictive Analysis,
- Pipelines,
- Git/GitHub,
- JavaScript,
- Python,
- SQL,
- MongoDB,
- RESTful APIs,
- Scikit-learn,
- Tensorflow,
- ReactJS,
- GraphQL,
- NextJS,
- Popular CSS Frameworks,
- Node.js,
- Express,
- Flask,
- CORS,
- JWT,
- ESLint,
- Bcrypt,
- Axios,
- Redux,
- Firebase/Firestore,
- JSON,
- Git,
- Heroku,
- Typescript

## Social Skills
- Leadership/Team Player
- Effective Communication
- Conflict Resolution
- Active Listening
- Customer Dealing
- Highly Motivated
- Effective and Responsible

## WORK EXPERIENCE

### Lead Backend Engineer – Koala Base (Startup Project)
March 2022 – Present
- Working on a Security Guard Management System using the MERN Stack.
- Working on a Guard Recruiting and Job Posting Web App using Node.js and MySQL.

### OMSGD – IT Support Engineer
September 2020 – Present
- Maintenance and Repairing of Computer Hardware and Software across various government branches in the Dhofar Province.

### Freelance ML Developer and Technical Content Writer
December 2018 – Present
- SEO Driven Articles for Sales Pitches and Marketing
- Technical Articles for Bachelors/Masters Level Programming and Data Science Assignments
- Designing Jupyter Notebooks for Machine Learning Assignments
- Designing and Optimizing Machine Learning Models in Python using scikit-learn, TensorFlow, Keras
- Designing Front-end Prototypes with CSS Frameworks

## PROJECTS

*MediPing*
Slack Clone for Medical Professionals
GitHub: https://github.com/divinedemon/MediPing
Website: MediPing (medi-ping.netlify.app)

*Reddit Clone*
Reddit Clone using GraphQL + Next.js
GitHub: https://github.com/DivineDemon/reddit-clone
Website: https://reddit-cloned.vercel.app/

*lemmeSee*
Pinterest Clone
GitHub: https://github.com/divinedemon/lemmeSee
Website: https://lemme-see.netlify.app/

*Instagram Clone*
Instagram Clone using Firebase + Next.js
GitHub: https://github.com/DivineDemon/instagram-clone
Website: https://instagram-clone-beryl-ten.vercel.app/

*Web 3.0*
Ethereum Smart Contract
GitHub: https://github.com/divinedemon/Web3.0

*Spotify Clone*
Spotify Clone for a Single User Account
GitHub: https://github.com/divinedemon/spotify-clone
Website: https://spotify-clone-beryl-beta.vercel.app/

*CyberML*
Using ML to Secure 2FA
GitHub: https://github.com/divinedemon/CyberML
Website: https://cyber-ml.herokuapp.com/

## EDUCATION

**GIFT University**
October 2014 – August 2019
Bachelors (Hons.) in Software Engineering - 3.0 CGPA.

*Capstone Project – Movie Forecasting*
Machine Learning Research Project for predicting the future success of an unreleased Hollywood movie based on its cast, director and genre.
● Front-end based on Node.js and Bootstrap for display
● Flask API for hosting Machine Learning Ensemble Model on Heroku
● Graphical Data Visualization using Python and Jupyter Notebooks
● Research Paper Written for Publication
● Best Commercially Valued Project Award

## PERSONAL DETAILS

| | | | |
|---|---|---|---|
| **Date of Birth** | 17th July 1997 | **Marital Status** | Unmarried |
| **Gender** | Male | **Visa Type** | Residence |
| **Religion** | Islam | **Country** | Oman |
| **Nationality** | Pakistani | **Visa Validity** | 9th Feb 2023 |
